

*Dreams of true love spread
a blissed aura around her...
starlight floods deep space.*

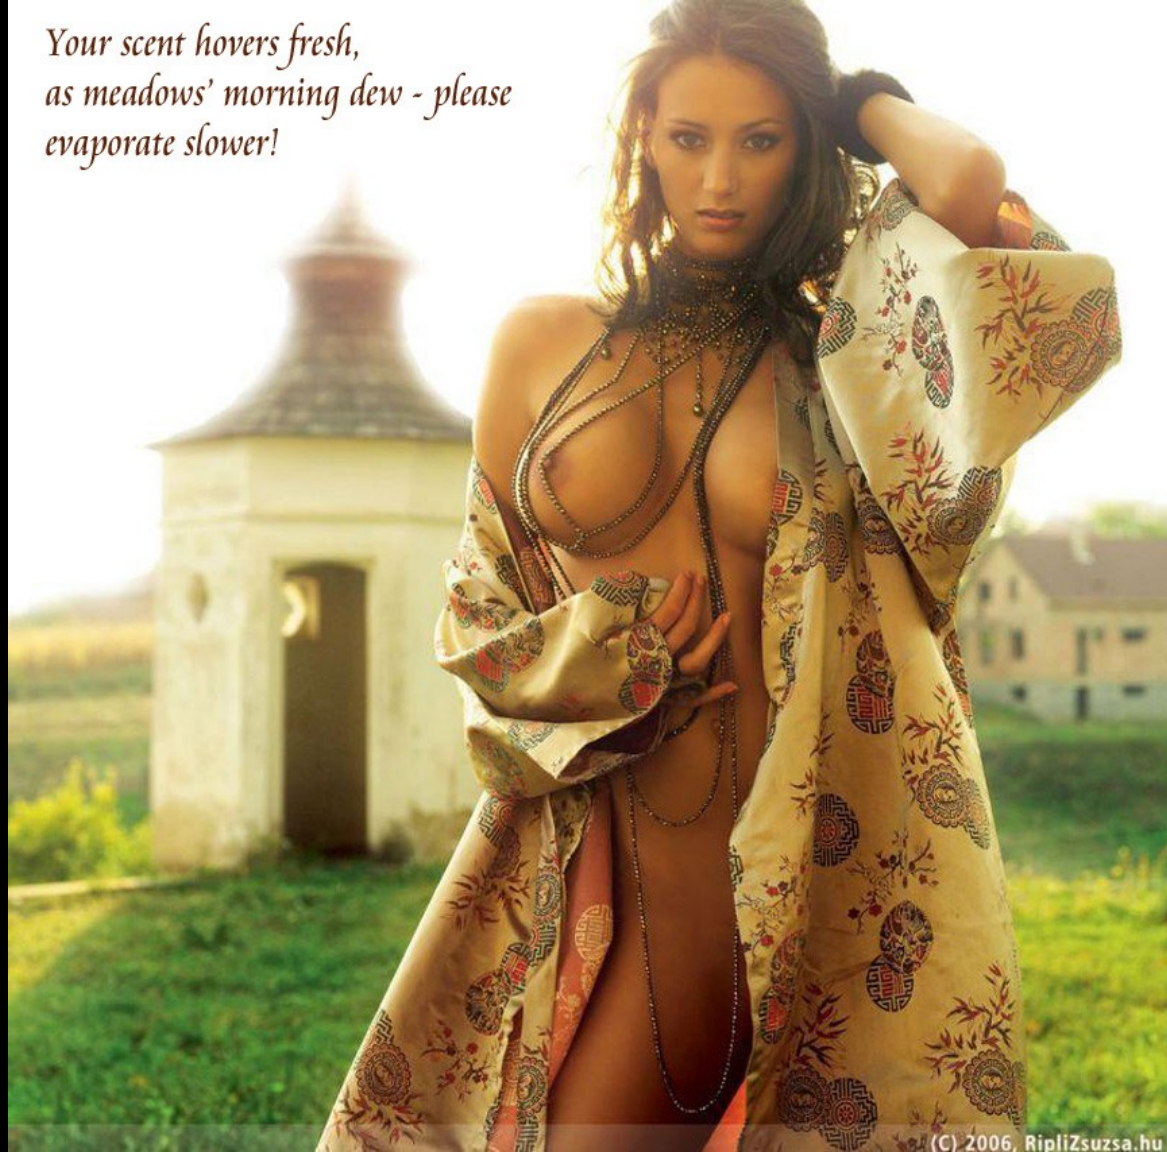

*Her love's in full bloom!
Who knew she had it in her?
Secrets on the breeze*

*We won the Lotto!
Gaia, jewel, orbits in
the Goldilox zone!*

*Your scent hovers fresh,
as meadows' morning dew - please
evaporate slower!*

Her gravity intrigued.
Then we adjusted our orbits.
Love is atomic!!

A tame doe so rare
lures me often
to the woods
to roll in her
leaves

*Before being born
(some say) I dreamed my life script
in future haikus.*

*Masterpiece of chance!
Serendipity, you planned
these magic brush strokes...*
